

# ECAM External Cable Assembly Module for BPEO BPEO ECAM D18 EASY INSTAL Double-Entry Cable Sealing for cable from 6 to 12 mm

CORNING

**Part Number:**  
**N721319A**

BPEO Fiber Closures “solution” is build on a range of closures with various front sides designed with hexagonal ports and oval ports.

The sealing and the retention of the fibre cables on those closures is accomplished thanks to cable entry called “ECAM” as diminutive of “External Cable Assembly Module”. Those ECAM” are independently fixed on each individual port of the closure front side.

## Features and Benefits

### **Cable Entry concept "ECAM" (External Cable Assembly Module)**

Cable preparation away from the closure – sealing and anchoring in a single device - plug on front side

---

### **Cable entry design "single ECAM" for cables various shape (Round, Pixian , ROC™, SST)**

Single ECAM range to be used in adequate hexagonal ports of the BPEO Closures range , respectively "S6/S7", "S9,5", "S12", "S18"

---

### **Cable Entry design "double ECAM" for uncut feeder cables various shape round**

Double ECAM range to be used in adequate oval ports of the BPEO Closures range , respectively "D18", "D20", "D27"

---

### **Specific "ECAM" kit content to manage fiber cables with central strength membres**

Specific kit to be used with MiniXtend® and/or ALTOS® cables from Corning®

ECAM External Cable Assembly Module for BPEO, BPEO ECAM D18 EASY INSTAL Double-Entry Cable Sealing for cable from 6 to 12 mm

# ECAM External Cable Assembly Module for BPEO BPEO ECAM D18 EASY INSTAL Double-Entry Cable Sealing for cable from 6 to 12 mm

## Specifications

General Specifications	
Brand	BPEO
Cable type	Round

Standards	
RoHS	Free of hazardous substances according to RoHS 2011/65/EU
Approvals and Listings	IEC61753-1_Ed02(2020)

Design	
Main cable diameter	6 - 12 mm
Sealing type	Rubber O Ring
Distribution Port Count	2
