CORNING

Part Number:

The type of splice technology used (fusion or mechanical) and whether planar light circuit (PLC) splitters are required will help determine which BPEO splice tray should be selected.

- Compact trays are 5 mm in height and occupy one slot in the fibre organiser.
- Standard trays are 10 mm in height and occupy two slots.
- All BPEO splice trays accept heat-shrink fusion splice protectors of 2.4 mm x 45 mm or 2.4 mm x 60 mm (after shrinkage). For example, Fibre Closure BPEO size 1 is equipped with a 12-slot fibre organiser. If using a 5 mm tray for 12 fusion splices, the total capacity of the closure will be 144 splices.
