The Centrix™ System is a high-density fiber management system that provides a balance of industry-leading density with innovative jumper routing. The system can be deployed in multiple applications including: central office, headend, FTTx, FTTCs and data center. Centrix System supports up to 4,320 LC or 2,880 SC connector ports per standard 7-ft frame/2200 mm. The frame design provides optimized routing paths for jumpers, reducing the risk of pileup or entanglement. A single jumper length for an in-frame, cross-connect network design reduces jumper inventory. The Centrix System is available with both rear or front cable access. Front cable access allows back-to-back frame configurations or mounting against a wall. Both frame configurations save space through increased port density.

Centrix™ Frame Centrix™ Dual Frame, 2.2m

Specifications

General Specifications

Product Type	Frames and Cable Managers
Access Type	Front access
Mounting Type	Floor-mount
Application	Fiber to the Premises
Security	Not Secured[not-secured]

Standards

RoHS	Free of hazardous substances according to RoHS 2011/65/EU
------	---

Design

Housing Material	Metal
Color	Gray

Dimensions

Height	2134 mm (84.02 in)
Width	1800 mm (70.87 in)
Depth	300 mm (11.81 in)

Ordering Information

Product Number	PF2RBJCF5ZMANNNN2PAWE
Package Contents	Optical Distribution Frame Assembly, Installation Instructions
Units per Delivery	1/1

Centrix™ Frame Centrix™ Dual Frame, 2.2m

The Corning logo consists of a solid blue square. Inside the square, the word "CORNING" is written in a white, serif, all-caps font, centered horizontally and vertically.
