Corning OptiSheath® Aerial Terminal, SCA-9T Series is available in two lengths designed for the aerial fiber access network and provides a low-cost solution optimized for optical access architectures.

Designed to install easily on a strand (hanging brackets included). The -LRS (left-right-standard end caps) offers 16 direct splice ports for drops per closure, 8 on each end cap. The OptiTap® version of the 9T series supports up to 12 OptiTap® Connector Single-Fiber Drop Cable Assembly ports.
